

ALT HOTEL TORONTO PEARSON

BEING ALTERNATIVE MEANS DOING AWAY WITH ROOM SERVICE, VALETS AND DOORMEN: ALT FOCUSES ON YOUR NEEDS, THE ESSENTIAL THINGS THAT BRING ADDED VALUE TO YOUR STAY. OUR “SERVICE LIGHT” APPROACH ALLOWS US TO OFFER GUESTS A UNIQUE \$149 RATE: THE SAME PRICE, EVERY DAY, ALL YEAR ROUND.

Situated on the Toronto Pearson International Airport site, the hotel is adjacent to terminals 1 and 3, and near the Viscount long-term parking lot, at the end of the LINK train line. This choice location allows guests to easily access airport facilities and the LINK train ensures, every five minutes, a direct link to the terminals.

- More than a stop at an airport hotel, ALT Hotel Toronto Pearson offers 153 ultra-comfortable rooms with original and intelligent design on 13 spacious floors filled with natural light.
- Friendly and versatile staff are always on hand to help.
- Guests can connect to our WIFI network, free of charge.
- ALTEXPO, a collective work of art designed specifically for the ALT Hotel Toronto Pearson lobby, was created with thousands of photos submitted to an Instagram contest by participants from all over the world. The final installation includes LCD screens that display the contest photos as well as new photos submitted by hotel guests in real time.
- ALTcetera will help satisfy guest cravings on the go! Hot and cold meals made from a variety of fresh grab-and-go foods are available for breakfast, lunch or dinner... to be eaten in the lobby or in a guest room.
- There is a hip lounge with a bar and pool table as well as areas in which to relax, read or socialize throughout the lobby.
- Two computers with complimentary high speed Internet access are also available to guests in the lobby area.
- A well-equipped fitness centre is available day and night.
- Organizing an event? Choose from 11 meeting rooms and one break room totaling almost 6 000 ft² and equipped with 50 inch televisions, projection screens and cutting edge of technology. Every room is bathed in natural light, to make events that much brighter!
- In the main lobby, there is an area available for last minute meetings, no reservations required.
- Fresh foods and snacks can also be ordered through our catering service to feed those mid-meeting cravings.
- Being ALternative means caring about the environment. ALT uses products that can be reused, refilled or recycled. Recycle bins can be found in all rooms and in public areas. Also, every area is smoke-free.

ROOM AMENITIES

- Of the 153 hotel rooms, 129 include a queen bed and 24 include two queen beds. The ceilings are 2.9 m high or 9 feet 6 inches for maximum breathing room.
- 100% ALT Egyptian cotton bedding, goose down duvet and feather centre duvet pillows make every night, a good one.
- iHome alarm clocks for iPods, multi-plug connectivity panels for electronic devices and a flat screen television were selected to keep guests charged, informed and entertained!
- An Italian-designed Calla armchair and original works of art are in every room to create just the right atmosphere.
- ALT does not have a spa, but every room has a spa-style bathroom featuring glass showers with good water pressure and containing 100% terry cloth bath towels and Fruits & Passion bath products.
- Our rooms offer some of the best views of the Toronto Pearson International Airport activities. Guests can watch the crews at work from the comfort of their Italian-designed Calla chairs!
- Can't get enough? Guest can shop the ALT COLLECTION at www.collectionsg.com to experience ALT comfort at home.

RESERVATIONS

- At ALT, the idea of "high" and "low" season does not exist. The price is the same \$149 rate, every day, all year round. In addition, one customer who has reserved online wins one night's stay for \$1 every week. Online reservations can be made at www.althotels.ca.
- Children under 12 years old stay for free and well-behaved and well-trained dogs are always welcome.

GREEN FEATURES

Being ALTERNative means being eco-responsible. Groupe Germain Hospitalité commissioned **Lemay Michaud Architecture Design** to design ALT Hotels across Canada. Each hotel consists of prefabricated rooms, a brand new construction concept, and is built using energy efficient techniques. ALT Hotel Toronto Pearson contains:

- Geothermal heating and cooling.
- Heat recovery from ventilation exhaust to preheat cold air coming in from the exterior.
- Heat recovery from water used in commercial washers.
- Energy efficient lighting, a central switch in the rooms to allow lights to be turned off remotely and sensors in the stairwells to control the use of lighting.
- Huge thermal windows with low emission rates that maximize natural light.
- Domestic water heating by geothermal energy.
- Automatic regulation system for ventilation, air conditioning and heating.
- A white roof to minimize the creation of heat islands.
