1. Corporate information

Pacific Rubiales Energy Corp. (the "Company") is an oil and gas company incorporated in Canada and engaged in the exploration, development and production of crude oil and natural gas primarily in Colombia, Peru, Brazil, Guatemala, Papua New Guinea and Belize. The Company's common shares are listed and publicly traded on the Toronto Stock Exchange and the Bolsa de Valores de Colombia (or the Colombian Stock Exchange), and the Brazilian Depository Receipts representing the Company's common shares ("BDRs") are traded on Bolsa de Valores Mercadorias e Futuros (or the Brazilian Stock Exchange). The Company's registered office is located at Suite 650 – 1188 West Georgia Street, Vancouver, British Columbia, V6E 4A2, Canada and it also has corporate offices in Toronto, Canada and Bogota, Colombia.

These consolidated financial statements of the Company were authorized for issuance by the Audit Committee of the Board of Directors on November 5, 2013.

2. Basis of preparation and significant accounting policies

The interim condensed consolidated financial statements for the three and nine months ended September 30, 2013 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2012.

New standards, interpretations and amendments adopted by the Company

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2012 and the additional accounting policy noted below, except for the adoption of new standards and interpretations effective as of January 1, 2013.

Non-controlling interest

Where the ownership of a subsidiary is less than 100%, a non-controlling interest ("NCI") exists and is accounted for and reported in equity. For each business combination, the Company elects whether to measure the NCI in the acquiree at fair value or at the proportionate share of the acquiree's net assets.

Net earnings and changes in ownership interests in a subsidiary attributable to NCI are identified and disclosed separately to that of the Company.

If the Company loses control over a subsidiary with NCI, it derecognizes the carrying amount of any NCI.

New standards and interpretations

The Company has applied, for the first time, certain standards and amendments that require restatement of previous financial statements. These include IFRS 10 *Consolidated Financial Statements*, IFRS 11 *Joint Arrangements*, IFRS 13 *Fair Value Measurement* and amendments to IAS 1 *Presentation of Financial Statements*. As required by IAS 34, the nature and effect of these changes are disclosed below. In addition, the application of IFRS 12 *Disclosure of Interests in Other Entities* will result in additional disclosures in the annual consolidated financial statements.

Several other new standards and amendments apply for the first time in 2013. However, they do not impact the annual consolidated financial statements of the Company or the interim condensed consolidated financial statements of the Company.

The nature and impact of each new standard or amendment is described below:

IAS 1 Presentation of Items of Other Comprehensive Income – Amendments to IAS 1

The amendments to IAS 1 introduce a grouping of items present in other comprehensive income ("OCI"). Items that could be reclassified (or recycled) to profit or loss at a future point in time (e.g., net gain on hedge of net investment, exchange differences on translation of foreign operations, net movement on cash flow hedges and net loss or gain on available-for-sale financial assets) now have to be presented separately from items that will never be reclassified

(Unaudited, U.S.\$ thousands, except share and per share amounts or unless otherwise stated)

(e.g., actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendment affected presentation only and had no impact on the Company's financial position or performance.

IAS 1 Clarification of the requirement for comparative information (Amendment)

This amendment to IAS 1 clarifies the difference between voluntary additional comparative information and the minimum required comparative information. An entity must include the comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional voluntary comparative information does not need to be presented in a complete set of financial statements.

IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaced the previously existing parts of IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation – Special Purpose Entities. IFRS 10 changes the definition of control so that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all of the following three criteria must be met: (a) an investor has power over the investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns. IFRS 10 had no impact on the consolidation of investments held by the Company.

IFRS 11 Joint Arrangements and IAS 28 Investments in Associates and Joint Ventures

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly Controlled Entities - Non-monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities ("JCEs") using the proportionate consolidation method. Instead, JCEs that meet the definition of a joint venture under IFRS 11 must be accounted for using the equity method.

The application of IFRS 11 has not significantly impacted the Company.

IFRS 12 Disclosure of Interests in Other Entities

IFRS 12 sets out the requirement for disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. None of these disclosure requirements are applicable for the interim condensed consolidated financial statements, unless significant events and transactions in the interim period require that they are provided. Accordingly, the Company has not made such disclosures.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Company.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 *Financial Instruments: Disclosures*. Some of these disclosures are specifically required for financial instruments by IAS 34.16A(j), thereby affecting the interim condensed consolidated financial statements period. The Company provides these disclosures in Note 24.

The Company has not early-adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

3. Business acquisitions

Pacific Infrastructure Venture Inc. ("PII", previously Pacific Infrastructure Inc.)

PII is a company established in the British Virgin Islands for the purpose of developing an export terminal, an industrial park, and a free trade zone in Cartagena, Colombia. Prior to February 8, 2013 the Company held a 49.38% interest in PII, and accounted for it as an associate using the equity method. On February 8, 2013 the Company acquired an additional 2.3 million common shares of PII for \$0.95 per share for \$2.2 million in cash, increasing the Company's interest to 50.2%. The additional investment results in the Company acquiring control of PII. The transaction is being accounted for as a business combination with the Company identified as the acquirer. As PII was previously accounted for using the equity method, upon acquiring control the difference between the carrying value at the time of the acquisition and the fair value, in the amount of \$12.3 million, was recognized as a gain in other expenses on the consolidated income statement. The results of PII after the acquisition date have been consolidated in the Company's financial results.

The acquisition of PII enables the Company to further increase its crude oil storage and transportation business while reducing reliance on third party services.

The acquisition has been accounted for on a preliminary basis taking into account the information available at the time these interim consolidated financial statements were prepared. The following table summarizes the consideration paid and the fair values of the assets acquired and liabilities assumed, recognized as of the acquisition date.

Purchase price	
Fair value of previously held equity interest	\$ 134,414

Total net assets acquired	\$ 136,622
Cash paid	\$ (2,208)
Net cash acquired	9,678
Net consolidated cash inflow	\$ 7,470

Since the date of acquisition PII has contributed a net loss of \$8.4 million to the continuing operations of the Company. If the combination had taken place at the beginning of the year, loss for the continuing operations would have been \$1.7 million higher.

The goodwill recognized relates to the deferred tax liabilities recognized on the intangibles. The goodwill recognized is not expected to be deductible for income tax purposes.

On February 27, 2013 the Company acquired an additional 20 million shares of PII at \$1.00 per share, for an aggregate purchase price of \$20 million. On March 26, 2013 the Company acquired an additional 20 million shares of PII at \$1.00 per share, for an aggregate purchase price of \$20 million. On April 24, 2013, the Company acquired an additional 2 million shares of PII at \$1.00 per share, for an aggregate purchase price of \$2 million. As at September 30, 2013 the Company's interest in PII is 56.9%.

CGX Energy Inc. ("CGX")

CGX is a company listed on the TSX Venture Exchange and is involved in the exploration and development of petroleum and natural gas in Guyana. The Company's interest in CGX prior to April 26, 2013 was 36% and the Company held two seats on CGX's board of directors; it was accounted for by the Company as an associate using the equity method. On April 26, 2013 the Company purchased as part of a private placement 350 million units at a price of C\$0.10 per unit for an aggregate price of C\$35 million. Each unit was comprised of one common share in the capital of CGX and one whole common share purchase warrant of CGX with an exercise price of C\$0.17. As a result of the private placement, the Company's interest increased to 63.2% and the Company acquired control over CGX. The transaction is being accounted for as a business combination with the Company identified as the acquirer. The Company elected to measure the non-controlling interest in CGX at fair value. Upon acquiring control, the Company recognized a loss of \$1.9 million in other expenses in the consolidated income statement, which is the difference between the carrying value of the existing ownership interest at the time of acquisition and the fair value. The results of CGX after the acquisition date have been consolidated in the Company's financial results.

The acquisition is in line with the Company's strategy of early-stage, large resource capture, technical strengths and the objective of building the leading Latin American independent explorer and producer of hydrocarbons.

The acquisition has been accounted for on a preliminary basis taking into account the information available at the time these interim consolidated financial statements were prepared. The goodwill recognized relates to the deferred tax liabilities recognized on the exploration and evaluation assets. The goodwill recognized is not expected to be deductible for income tax purposes. The following table summarizes the consideration paid and the fair values of the assets acquired and liabilities assumed, recognized as of the acquisition date.

Since the date of acquisition, CGX has contributed net loss of \$10.6 million to the continuing operations of the Company. If the combination had taken place at the beginning of the year, loss for the continuing operations would have been \$1.1 million higher.

Between the date of acquisition and September 30, 2013, the Company acquired an additional 5.8 million shares of CGX at \$0.15 per share, for an aggregate purchase price of \$0.9 million. As at September 30, 2013 the Company's interest in CGX is 64.3%.

4. Segmented information

The Company is organized into business units based on the main types of activities and has one reportable segment as at September 30, 2013: the exploration, development, and production of heavy crude oil and gas in Colombia. The Company's assets in Papua New Guinea and Brazil are still in the early stages of development and therefore are not considered a reportable segment as at September 30, 2013. The Company's operations in Guatemala, Guyana and Peru were not significant, as at September 30, 2013.

As at September 30, 2013, all of the Company's assets are located in Colombia except for \$36 million (December 31, 2012: \$18 million) in cash and cash equivalents held in Canada and the United States, as well as non-current assets of \$466 million (December 31, 2012: \$328 million) in Peru, \$126 million (December 31, 2012: \$62 million) in Papua New Guinea, \$287 million (December 31, 2012: \$85 million) in Brazil, \$44 million (December 31, 2012: Nil) in Guyana, and \$31 million (December 31, 2012: \$19 million) in Guatemala.

The Company's revenue, based on the geographic location of customers, is as follows:

6. Equity tax

On December 29, 2010, the Colombian Congress passed a law that imposes a 6% tax on the equity of the Colombian operations as at January 1, 2011, payable in eight equal instalments.

The equity tax is payable even in the event that the Company ceases to have taxable equity in subsequent years. As such, the Company recognized on January 1, 2011, the entire amount of the equity tax payable on the consolidated statement of financial position and a corresponding expense in the consolidated statement of income. The amount recognized is calculated by discounting the eight future equity tax payments using a rate of 10.8%.

The Canadian statutory income tax rate is 26.50% and the Colombian income tax rate is 34%. The Colombian Congress approved a new tax law in December 2012 that came into effect on January 1, 2013, where the statutory income tax rate was reduced from 33% down to 25%. In addition, the law introduced an incremental 9% income tax surcharge to substitute the elimination of certain payroll taxes primarily related to low income salaries. As a result, the newly approved income tax rate was increased to 34% (considering the additional 9%).

8. Earnings per share

Earnings per share amounts are calculated by dividing the net earnings for the period attributable to shareholders of the Company by the weighted average number of shares outstanding during the period.

Set out below are the investments in associates. Investments in associates are accounted for using the equity method, with the Company's proportionate share of the associates' net income or loss recognized in the consolidated statement of income.

ODL Finance S.A. ("ODL")

The investment represents a 35% interest in ODL, a Panamanian company with a Colombian branch that has constructed an oil pipeline for the transportation of heavy crude oil produced from the Rubiales field. The remaining 65% interest is owned by Ecopetrol, S.A. ("Ecopetrol"), the national oil company of Colombia.

ODL's functional currency is the Colombian peso and the currency translation adjustment upon conversion to U.S. dollars has been recorded in other comprehensive income.

The Company has ship or pay contracts with ODL for the transportation of crude oil from the Rubiales field to Colombia's oil transportation system, for a total commitment of \$172 million from 2013 to 2017.

Oleoducto Bicentenario de Colombia ("Bicentenario")

Bicentenario is a corporation established and owned by a consortium of oil producers operating in Colombia, led by Ecopetrol, with the Company owning 33.4%. Bicentenario will build and operate a private-use oil pipeline in Colombia between Casanare and Coveñas. Bicentenario's functional currency is the Colombian peso and the currency translation adjustment upon conversion to U.S. dollars has been recorded in other comprehensive income.

The Company has ship or pay contracts with Bicentenario for the transportation of crude oil from the Rubiales field to Colombia's oil transportation system, for a total commitment of \$1.9 billion from 2013 to 2025.

(Unaudited, U.S.\$ thousands, except share and per share amounts or unless otherwise stated)

Pacific Power Generation Corp ("Pacific Power", previously Ronter)

The investment in Pacific Power represents a 24.9% indirect interest in Promotora de Energia Electrica de Cartagena & Cia, S.C.A. ESP ("Proelectrica"). Proelectrica is a private, Cartagena, Colombia-based 90 megawatt electrical utility peak demand supplier to the local Cartagena utility.

Pacific Coal Resources Ltd. ("Pacific Coal")

Pacific Coal is engaged in the acquisition and development of coal mining assets and related businesses in Colombia. On March 25, 2013 Pacific Coal consolidated its issued and outstanding common shares on a one-for-seven basis. As at September 30, 2013, the Company's interest in Pacific Coal was 14.4% and the investment was estimated at \$1.9 million (December 31, 2012: \$8.3 million), based on the last traded price on the TSX Venture Exchange of C\$0.30 (December 31, 2012: C\$0.18 pre-share consolidation).

The Company has determined that it holds significant influence but not control over Pacific Coal as a result of the Company's equity interests and a number of common directors.

The Company did not receive any cash dividends from its equity-accounted investments during the three and nine months ended September 30, 2013 (2012: Nil).

2009 Senior Notes

On March 21, 2013 the Company exercised its right to redeem the entire aggregate principal amount of the outstanding notes. The total redemption amount was \$109.8 million, including \$91.5 million in principal and \$18.3 million in early redemption premium, and the early redemption premium was expensed as finance costs. Additionally, the Company paid \$3 million in accrued interest.

For the three and nine months ended September 30, 2013, Nil and \$3.4 million, respectively (2012: \$2.1 million and \$6.3 million) in interest expense related to the 2009 Senior Notes has been recorded in the consolidated income statement.

2011 Senior Notes

The 2011 Senior Notes, due December 12, 2021, are direct, unsecured, subordinated obligations with interest payable in arrears at a rate of 7.25% on June 12 and December 12 of each year.

The 2011 Senior Notes are on the Official List of the Luxembourg Stock Exchange and trade on the Euro MTF. Under the terms of the notes, the Company is required to maintain (1) an interest coverage ratio of greater than 2.5; and (2) a debt to EBITDA ratio of less than 3.5. The covenants do not apply during any period of time when the notes have an investment grade rating from at least two rating agencies. The Company was compliant with the covenants during the period.

The 2011 Senior Notes are carried at amortized cost using the effective interest rate method with note discount and transaction costs netted against the principal. The principal amount outstanding on the 2011 Senior Notes as at September 30, 2013 was \$712 million (December 2012: \$712 million). For the three and nine months ended September 30, 2013, \$14.1 million and \$42 million respectively (2012: \$14 million and \$41.9 million) in interest expense related to the 2011 Senior Notes has been recorded in the consolidated statements of income.

⁽²⁾ The balance as at September 30, 2013 represents the unamortized deferred financing cost.

2013 Senior Notes

On March 28, 2013, the Company closed the issuance of \$1 billion of senior notes that are due March 28, 2023 ("2013 Senior Notes"). The 2013 Senior Notes are direct, unsecured, subordinated obligations with interest payable in arrears at a rate of 5.125% on March 28 and September 28 of each year.

The 2013 Senior Notes are listed on the Official List of the Luxembourg Stock Exchange and trade on the Euro MTF. Under the terms of the notes, the Company is required to maintain (1) an interest coverage ratio of greater than 2.5; and (2) a debt to EBITDA ratio of less than 3.5. The covenants do not apply during any period of time when the notes have an investment grade rating from at least two rating agencies. The Company was compliant with the covenants during the period.

The 2013 Senior Notes are carried at amortized cost using the effective interest rate method with note discount and transaction costs netted against the principal. The principal amount outstanding on the 2013 Senior Notes as at June 30, 2013 was \$1 billion (December 2012: Nil). For the three and nine months ended September 30, 2013, \$13.2 million and \$26.1 million respectively in interest expense related to the 2013 Senior Notes has been recorded in the consolidated income statement.

Revolving credit facility

During 2012 the Company closed a \$400 million revolving credit facility (the "US Dollar Facility") and a Colombian Peso equivalent of \$300 million revolving credit facility (the "Peso Facility") with a syndicate of international and Colombian banks. The US Dollar Facility carries an interest rate of LIBOR plus 2.75% and matures on September 21, 2015, with any unused facility subject to a commitment fee of 0.95%. On April 15, 2013 the Company repaid the entire outstanding balance of \$358 million on the US Dollar Facility. As of September 30, 2013, no additional amount has been drawn down on the US Dollar Facility (December 31, 2012: \$353.6 million).

The Peso Facility has an interest rate based on the DTF as well as a commitment fee of 0.40% on any unused facility and matures on September 21, 2015. As at September 30, 2013, the Company has drawn down \$92.1 million from the Peso Facility (December 31, 2012: \$24.9 million).

Both the US Dollar Facility and the Peso Facility are subject to covenants that require the Company to maintain: (1) a debt to EBITDA ratio of less than 3.5; and (2) an interest coverage ratio of greater than 2.5. The Company was compliant with the covenants during the period.

2013 BOFA Loan

On May 2, 2013 the Company entered into a new loan agreement with Bank of America (the "2013 BOFA Loan") for \$109 million. The 2013 BOFA Loan carries an interest rate of LIBOR plus 1.5% and matures on November 2016, with interest payments due biannually.

The 2013 BOFA Loan is subject to covenants that require the Company to maintain: (1) a debt to EBITDA ratio of less than 3.5; and (2) an interest coverage ratio of greater than 2.5. The Company was compliant with the covenants during the period.

Working capital credit facilities

On August 1, 2013 and September 17, 2013 the Company entered into two working capital loans with Bank of America ("BOFA Working Capital Loan") and Citibank ("Citibank Working Capital Loan") for \$100 million and \$70 million respectively.

The BOFA Working Capital Loan has a term of one year and an interest rate of LIBOR + 0.95%. The Citibank Working Capital Loan has term of three months and an interest rate of LIBOR + 1.25%.

Convertible debentures

On August 29, 2013 the convertible debentures matured and the entire principal outstanding was either repaid or converted into common shares of the company at a rate of C\$12.40 (2012: C\$12.93) per share, being equivalent to 80.67 (2012: 77.94) common shares per C\$1,000 face amount of debentures.

The conversion feature of the Convertible debentures that is recognized as a derivative liability was revalued to its fair value through the consolidated income statement at the date of conversion. Upon conversion the portion of the

liability related to debt that was converted into common shares was transferred to shareholders equity and the portion related to the debt not converted was recognized as a gain in the consolidated income statement.

19. Asset retirement obligation

The Company makes full provision for the future cost of decommissioning oil production facilities on a discounted basis on the installation of those facilities.

As at December 31, 2012	\$ 83,22	28
Arising during the period	6,45	54

Arising during the period	(3,86	31)
Accretion expense	71	16
As at September 30, 2013	\$ 93,36	39

The asset retirement obligation represents the present value of decommissioning costs related to oil and gas properties, of which up to \$130 million are expected to be incurred (December 31, 2012: \$93 million). The future decommissioning costs are discounted using the risk free rate of between 3.73% and 4.41% (December 31, 2012: 2.50% and 2.92%) to arrive at the present value. Assumptions, based on the current economic environment, have been made which management believe are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to take into account any material changes to the assumptions. However, actual decommissioning costs will ultimately depend upon future market prices for the necessary decommissioning expenditures which will reflect market conditions at the relevant time. Furthermore, the timing of decommissioning is likely to depend on when the fields cease to produce at economically viable rates. This in turn will depend upon future oil and gas prices, which are inherently uncertain.

20. Finance leases

The Company has entered into two power generation arrangements to supply electricity for three of its oil fields in Colombia until June 2016 and August 2021. In addition, the Company has lease and take or pay arrangements for airplanes, IT equipment and a gas facility that are accounted for as finance leases. These finance leases have an average effective interest rate of 12.85%. The Company's minimum lease payments are as follows:

The Company has various guarantees in place in the normal course of business. As at September 30, 2013, the Company has issued letters of credit and guarantees for exploration and operational commitments for a total of \$349 million (December 31, 2012 – \$256 million).

Association contracts

Certain association contracts signed before 2003 with Ecopetrol include clauses in which Ecopetrol may commence participating in the operation of new discoveries made by the Company at any time, without prejudice to the Company's right to be reimbursed for the investments made on their sole account and risk (back-in right). The contract provides that if Ecopetrol decides to declare the commerciality of the field and participate in the commercial phase of the association contract, the Company shall have the right to be reimbursed for 200% of the total costs incurred during the exploration phase of the contract. Once the reimbursement has been made, Ecopetrol is entitled to acquire a 50% share of the oil production of the fields. No back-in rights were exercised as at September 30, 2013.

Contingencies

The Company is involved in various claims and litigation arising in the normal course of business. While the outcome of these matters is uncertain, there can be no assurance that such matters will be resolved in the Company's favour. The Company does not currently believe that the outcome of adverse decisions in any pending or threatened proceedings related to these and other matters or any amount which it may be required to pay by reason thereof would have a material impact on its financial position, results of operations or cash flows.

PMD class action lawsuit

There is an ongoing class action lawsuit against PetroMagdalena Energy Corp. ("PMD") that was filed in May 2011 claiming total damages of C\$50 million. The lawsuit was initiated while PMD was a listed public company. PMD has filed a Notice of Intent to Defend, and on June 11, 2013, this action was certified as a class action. The outcome of this matter cannot be determined at this time; as such the Company has made no provision as at September 30, 2013.

Tax review in Colombia

The Company currently has a number of tax filings under review by the Colombian tax authority ("DIAN").

The DIAN has reassessed value added tax ("IVA") for 2009 on the basis that the volume of oil produced and used for internal consumption at certain fields in Colombia should have been subjected to IVA. The amount reassessed, including interest and penalties, is estimated to be \$10 million. The Company disagrees with the DIAN's reassessment and as of September 30, 2013 an official appeal has been initiated. Several other taxation periods through to 2011 in respect of IVA on field oil consumption are currently under review by the DIAN. For the periods that are under review, if the DIAN's views were to prevail, the Company estimates that the IVA, including interest and penalties, could range between \$12 million to \$41 million. The Company continues to utilize oil produced for internal consumption, which is an accepted practice for the oil industry in Colombia.

The DIAN is also reviewing certain income tax deductions in respect of the special tax benefit for qualifying petroleum assets, as well as other exploration expenditures. To date the DIAN has reassessed \$12 million of tax owing, including estimated interest and penalties, with respect to the denied deductions.

(Unaudited, U.S.\$ thousands, except share and per share amounts or unless otherwise stated)

The Company disagrees with the DIAN's claims on the IVA applied on internal oil consumption and the denial of income tax deductions. As of September 30, 2013, the Company believes that the dispute will be resolved in favour of the Company. As a result no provision has been made in the financial statements.

Natural gas supply agreements

Since the discovery of the La Creciente field in early 2007, the Company has focused on developing a commercial strategy to service the domestic market while concurrently exploring export opportunities. The Company has entered into take or pay contracts and interruptible contracts totalling 60MMBTU per day.

22. Issued capital

(a) Authorized, issued and fully paid common shares

The Company has an unlimited number of common shares with no par value.

The continuity schedule of share capital is as follows:

(c) Deferred share units

The Company established the Deferred Share Unit Plan (the "DSU Plan") for its non-employee directors during 2012. Each DSU represents the right to receive a cash payment on retirement equal to the volume-weighted average market price of the Company's shares at the time of surrender. Cash dividends paid by the Company are credited as additional DSUs. As at September 30, 2013, 286,853 DSUs were outstanding with a fair value of \$5.8 million (December 31, 2012: 145,563 DSUs valued at \$3.3 million). The fair value of the DSUs was recognized as share-based compensation on the consolidated statement of income with a corresponding amount recorded in accounts payable and accrued liabilities on the consolidated statement of financial position.

23. Related party transactions

The following sets out the details of the Company's related party transactions

- a) In June 2007, the Company entered into a 5-year lease agreement with Blue Pacific for administrative office space in one of its Bogota, Colombia locations. Monthly rent expense of \$57 is payable to Blue Pacific under this agreement. Three directors and officers of the Company control, or provide investment advice to the holders of, 67.2% of the shares of Blue Pacific. During 2011, the lease was amended to include additional space in Bogota for a 10-year term with a monthly rent of \$0.4 million, and assignment of the lessor to an entity controlled by Blue Pacific.
- b) As at September 30, 2013, the Company had trade accounts receivable of \$1.1 million (December 31, 2012: \$4.5 million) from Proelectrica, in which the Company has a 24.9% indirect interest and which is 31.49% owned by Blue Pacific. The Company's and Blue Pacific's indirect interests are held through Pacific Power. Revenue from Proelectrica in the normal course of the Company's business was \$4.9 million and \$26.8 million for the three and nine months ended September 30, 2013 (2012: \$8.1 million and \$27.1 million).

In October 2012, the Company and Ecopetrol signed two Build, Own, Manage, and Transfer ("BOMT") agreements with Consorcio Genser Power-Proelectrica and its subsidiaries ("Genser-Proelectrica") to acquire certain power generation assets for the Rubiales field. Genser-Proelectrica is a joint venture between Proelectrica and Genser Power Inc. which is 51% owned by Pacific Power. Total commitment under the BOMT agreements is \$229.7 million over ten years. In April 2013 the Company and Ecopetrol entered into

(Unaudited, U.S.\$ thousands, except share and per share amounts or unless otherwise stated)

another agreement with Genser-Proelectrica to acquire additional assets for a total commitment of \$57 million over ten years. At the end of the Rubiales Association Contract in 2016, the Company's obligations along with the power generation assets will be transferred to Ecopetrol. During the three and nine months ended September 30, 2013, those assets were under construction and the Company paid cash advances of \$0.6 million and \$10.5 million (2012: Nil). The Company has accounts payable of \$0.4 million (December 2012: Nil) due to Genser-Proelectrica.

- c) During the three and nine months ended September 30, 2013, the Company paid \$4.9 million and \$27.7 million (2012: \$13.8 million and \$30.1 million) to Transportadora Del Meta S.A.S. ("Transmeta") in crude oil transportation costs. In addition the Company has accounts receivable of \$1.6 million (December 31, 2012: \$2.4 million) from Transmeta and accounts payable of \$4.3 million (December 31, 2012: \$8.5 million) to Transmeta as at September 30, 2013. Transmeta is controlled by a director of the Company.
- d) Loans receivables from related parties in the aggregate amount of \$504 (December 31, 2012 \$179) are due from two director and six officers (2012: three directors and three officers) of the Company. The loans are non-interest bearing and payable in equal monthly payments over a 48-month terms.
- e) The Company has entered into aircraft transportation agreements with Petroleum Aviation Services S.A.S., a company controlled by a director of the Company. During the three and nine months ended September 30, 2013, the Company paid \$4.4 million and \$11 million (2012: \$3.8 million and \$11.1 million) in fees as set out under the transportation agreements. As at September 30, 2013 the Company had accounts payable of \$1.2 million to Petroleum Aviation Services S.A.S. (December 31, 2012: \$2.8 million).
- f) During the three and nine months ended September 30, 2013, the Company paid \$38.9 million and \$99.4 million to ODL (2012: \$35.5 million and \$80.9 million) for crude oil transport services under the pipeline take or pay agreement, and has accounts payable of \$12 million to ODL as at September 30, 2013 (December 31, 2012: \$5 million). The Company received \$0.2 million and \$0.7 million from ODL during the three and nine months ended September 30, 2013 (2012: \$0.4 million and \$0.8 million) with respect to certain administrative services and rental equipment and machinery.
- g) As at September 30, 2013 the balance of loans outstanding to Bicentenario under the agreement in note 17 (other assets), is \$33 million (December 31, 2012: \$32.6 million). Interest income of \$0.5 million and \$1.5 million was recognized during the three and nine months ended September 30, 2013 (2012: \$3.2 million and \$5.2 million). The Company has received Nil and \$0.7 million during the three and nine months ended September 30, 2013 (2012: nil) with respect to certain administrative services and rental equipment and machinery and has no account receivable as at September 30, 2013 (2012: \$2.1 million). In addition, the Company has advanced \$38 million as of September 30, 2013 (December 31, 2012: Nil) to Bicentenario as a prepayment of transport tariff, which will be amortized against the barrels transported once Bicentenario becomes operational. The advance is included in accounts receivable as of September 30, 2013.
- h) During the three and nine months ended September 30, 2013, the Company paid \$0.2 and \$0.5 million (2012: \$0.1 million and \$2.2 million) to Helicopteros Nacionales de Colombia S.A.S. ("Helicol") with respect to air transportation services. Helicol is controlled by a director of the Company.

24. Financial assets and liabilities

(a) Credit risk

	\$	835,148	\$	809,698

The Company actively limits the total exposure to individual client counterparties and holds a trade credit insurance policy for indemnification for losses from non-collection of trade receivables. For the three and nine months ending in September 30, 2013, two of the Company's customers had accounts receivable that were greater than 10% of total trade accounts receivable. The Company's credit exposure to these customers was \$91 million and \$41 million or 39% and 18% of trade accounts receivable, respectively (September 30, 2012: \$98 million and \$53 million respectively or 40% and 21% of trade accounts receivable). Revenues from these customers for the three and nine months ended September 30, 2013 were \$392 million and \$784 million or 35% and 23% of net revenue (September 30, 2012: \$242 million and \$368 million or 28% and 13% of net revenue).

The entire amount of the recoverable IVA is due from the Colombian tax authority.

The majority of the receivables from joint arrangements are due from Ecopetrol.

(b) Foreign currency risk

The Company is exposed to foreign currency fluctuations in Colombian pesos (COP). Such exposure arises primarily from expenditures that are denominated in currencies other than the functional currency. The Company monitors its exposure to foreign currency risks. To reduce its foreign currency exposure associated with operating expenses incurred in COP, the Company may enter into foreign currency derivatives to manage such risks. In addition, the Company may also enter into currency derivatives to manage the foreign exchange risk on financial assets that are denominated in the Canadian dollar. The Company has the following currency risk management contracts outstanding:

The Company has designated the currency collars as cash flow hedges. The effective portion of the change in the fair value of the above currency hedges is recognized in other comprehensive income as unrealized gains or losses on cash flow hedges. The effective portion is reclassified as production and operating expenses in net earnings in the same period as the hedged operating expenses are incurred. During the three and nine months ended September 30, 2013, \$2.2 million of unrealized gain and \$22.5 million of unrealized loss respectively (2012: \$2.3 million of unrealized loss and \$61 million of unrealized gain) were initially recorded as other comprehensive income, and \$1.1 million loss and \$3.9 million gain (2012: \$3.9 million and \$14.3 million gain) were subsequently transferred to production and operating cost when the gains became realized. The Company excludes changes in fair value due to the time value of the investments and records these amounts, along with hedge ineffectiveness, as foreign exchange gains or losses in the period that they arise. During the three and nine months ended September 30, 2013, \$8.9 million gain and \$4.5 million loss (2012: \$0.8 million and \$18.2 million loss) due to hedge ineffectiveness was recorded as foreign exchange.

The currency forwards are COP-US dollar forwards that provide an early termination option to the counterparty when certain thresholds are reached. The currency forwards have not been designated as hedges and the change in fair value is recorded in profit or loss. For the three and nine months ended September 30, 2013, the Company recorded an unrealized gain of \$4.4 million and unrealized loss of \$4 million respectively (2012: Nil) representing the change in the fair value of the forward currency price risk management contracts in net earnings.

(c) Commodity price risk

Commodity price risk is the risk that the cash flows and operations of the Company will fluctuate as a result of changes in commodity prices. Significant changes in commodity prices can also impact the Company's ability to raise capital or obtain additional debt financing. Commodity prices for crude oil are impacted by world economic events that dictate the levels of supply and demand. From time to time the Company may attempt to mitigate commodity price risk through the use of financial derivatives. The Company recognizes the fair value of its derivative instruments as assets or liabilities on the statement of financial position. None of the Company's commodity price derivatives currently qualify as fair value hedges or cash flow hedges, and accordingly, changes in their fair value are recognized in net earnings.

For the three and nine months ended September 30, 2013, the Company recorded a loss of \$10.5 million and \$8.3 million respectively (2012: \$26.8 million loss and \$23.8 million gain) on commodity price risk management contracts in net earnings. Included in these amounts were \$8.2 million and \$10.5 million of unrealized loss (2012: unrealized loss of \$18.9 million and \$32.7 million unrealized gain) representing the change in the fair value of the contracts and \$53 thousand for the three and nine months (2012: \$7.9 million and \$8.9 million realized loss) of realized loss resulting from premiums paid.

If the forward WTI crude oil price estimated at September 30, 2013 had been \$1/bbl higher or lower, the unrealized gain or loss on these contracts would change by approximately \$3 million (2012: \$3 million).

Fair value of the 2011 Senior Notes is estimated using the last traded price, representing 106.75% of the face value of the 2011 Senior Notes as at September 30, 2013. Fair value of the 2013 Senior Notes is estimated using the last traded price, representing 90.44% of the face value of the 2013 Senior Notes as at September 30, 2013.

When drawn, bank debt bears interest at a floating rate and accordingly the fair value approximates the carrying value. Due to the short term nature of cash and cash equivalents, accounts receivable and other current assets, accounts payable and accrued liabilities, their carrying values approximate their fair values.

The following table summarizes the Company's financial instruments that are carried at fair value, in accordance with the classification of fair value input hierarchy in *IFRS 7 Financial Instruments - Disclosures*.

The Company uses Level 1 inputs, being the last quoted price of the traded investments, to measure the fair value of its available-for-sale financial assets.

The Company uses Level 2 inputs to measure the fair value of its risk management contracts. The fair values of these contracts are estimated using internal discounted cash flows based upon forward prices and quotes obtained from counterparties to the contracts, taking into account the credit worthiness of those counterparties or the Company's credit rating when applicable.

The Company uses Level 3 inputs to measure the fair value of certain investments that do not have an active market.

Valuation techniques

The foreign currency forward contracts are measured based on observable spot exchange rates, and the yield curves of the respective currencies, as well as the currency basis spreads between the respective currencies. The credit risks associated with the counterparties and the Company are estimated based on observable benchmark risk spreads.

Commodity risk management contracts are measured at observable spot and forward WTI prices.

Investment in unquoted ordinary shares which have no observable market data are valued at cost.

27. Subsequent Events

a) The Company has entered into an agreement with Petrominerales Ltd. ("PMG") to acquire all of its issued and outstanding shares. Pursuant to the arrangement, for each share of PMG the Company will pay C\$11 in cash for a total of approximately C\$935 million, the issuance of one common share of ExploreCo, and the assumption of net debt estimated at C\$640 million. ExploreCo is a newly formed exploration and production company which will consist of PMG's Brazilian assets and C\$100 million in cash. The arrangement is subject to approval by the shareholders of PMG, court approval, regulatory, stock exchange and other

approvals. The shareholders of PMG are scheduled to vote on the transaction on November 27, 2013. The total purchase price will be financed with cash on hand and a committed bridge facility, which the Company expects to refinance after the acquisition is completed. To reduce the foreign currency exposure associated with the cash consideration, the Company has entered into currency forward contracts for C\$1 billion with forward rates ranging from C\$1.02645 to C\$1.02709 per 1 US dollar. The settlement of the currency forwards is contingent on the completion of the acquisition of PMG.
